The NCTE is a Non-profit association, founded in 1984, which trains, and gives support to all preschool, primary and secondary professionals, university students from public or private institutions from all over the country and the Central American basin.

2018 THEME: Developing Global Competence in the English Classroom

As English teachers, we are already supporting our students by facilitating the learning of the lingua franca to communicate without barriers. But we need to go beyond teaching English in our classrooms. As 21st century educators, we need to foster critical thinking, cross-cultural skills, creativity, innovation and cooperation in our classrooms. By doing so, we will be preparing our students to successfully navigate this global world.
